Great Season Record

We are all real proud of the Indians this year. They improved the season record of last year, 6-4, to a 7-3. The Indians lost one game in pre-season and two games in district play to Baird and Hamlin. Even though some people thought the season record wouldn't be as good as last year, the Indians pulled through and proved them wrong by improving the record.

The Indians weren't very big in size, but they were sure big in determination, spirit, and pride. And with the young men coming up the team should keep on improving.

The 1978-1979 Varsity girls record was nine wins and sixteen losses. The girls didn't do as well as they expected, but they never gave up. Most of the losses were usually by five or ten points. All in all, the girls did a good job under their new coach, Mrs. Ronda Havins. Coach Havins really pushed the girls to play hard and helped them to accept the losses as well as the wins.

Three girls of the starting team received honors this year. They were: Teresa Atwell—2nd Team All District, Tami Tankersley—Honorable Mention, Brissy Martinez—Honorable Mention.

Coach Havins said, "I feel each has realized the value in participating, as it prepares us all for a far more important and complex game—LIFE."

Back to the basics

Certain attributes and qualities are basic to life itself. Among these are happiness, sense of accomplishment, personal value, appreciation of fellow man, kindness, patience, temperance, conscientiousness, and faithfulness. This is by no means a complete list, but these are examples of the "basic" qualities of life. These "basics" are not taught from a text book — for, indeed, they cannot be lectured into existence. Rather, they are slowly learned and incorporated by following the examples of others. The teachers and staff at Abilene Christian University try to live their lives by these basic standards. Join us in a return to the basics.
